PROFESSIONAL SUMMARY

A dedicated and ambitious Information Technology graduate with a strong work ethic, an aptitude for critical thinking, and a passion for technology-driven solutions. Proficient in Python full-stack development, data analytics, and web technologies. Committed to aligning skills and efforts with organizational goals, contributing meaningfully through precision, initiative, and continuous self-improvement.

EDUCATION

Bachelor's in Information Technology Er. Perumal Manimekalai College of Engineering, Hosur CGPA: 7.8 / 10	Nov 2021 – May 2025
Higher Secondary Education (HSC) Parimalam, Hosur Percentage: 77%	Jun 2019 – Apr 2021
Secondary Education (SSLC) Parimalam, Hosur Percentage: 68%	Jun 2018 – Apr 2019

TRAINING & EXPERIENCE

Python Full Stack & Data Science Training Py Spiders ▶ Trained in Core Python, Advanced Python, and Object-Oriented Programming concepts ▶ Developed full stack web applications using Django, HTML, CSS, JavaScript, and Bootstrap ▶ Worked with SQL and MySQL for database design, queries, and backend integration	Sep 2025 – May 2026
Data Science Training Py Spiders ▶ Gained hands-on experience in Data Science concepts using NumPy, Pandas, and Python libraries ▶ Worked on Machine Learning fundamentals including data preprocessing, model training, and analysis ▶ Learned Power BI for data visualization and reporting, along with Big Data concepts and tools	Sep 2025 – May 2026
Full Stack Web Development Training Profizio Solutions ▶ Gained hands-on experience in front-end web development and real-world project building ▶ Built a fully responsive Portfolio website and a functional web application using HTML, CSS, and JavaScript	Sep 2024 – Oct 2024

TECHNICAL SKILLS

Languages	Python, SQL, HTML, CSS, JavaScript
Frameworks	Django, Flask, Streamlit, Scikit-learn
Databases	MySQL, Oracle
Data & BI	Power BI, DAX, Data Visualization, Data Cleaning, Exploratory Data Analysis (EDA)
Tools	VS Code, Microsoft Excel, Git
AI & Machine Learning	Machine

PROJECTS

AI-Powered ATS Resume Scorer — *AI / Full Stack Development*

- Built an AI-powered resume screening tool using RAG and Anthropic Claude API to evaluate resumes against job descriptions
- Developed a FastAPI backend with REST APIs and a responsive frontend for ATS score analysis, keyword matching, and improvement suggestions
- Containerized the application using Docker and docker-compose, implementing a structured JSON outputs for scalable and consistent deployment

Tech: Python | Fast API | Anthropic Claude API | RAG | Docker | HTML | CSS | JavaScript

Medicare Hospital Management System (HMS) — *Full Stack Web Development*

- Developed a hospital management web application using Django for managing patients, doctors, appointments, lab tests, and billing
- Implemented multi-role authentication with role-based access for patients, lab technicians, and admins
- Built appointment scheduling, lab report management, and automated billing/discharge modules
- Integrated reCAPTCHA, secure .env configuration, and modular Django app architecture

Tech: Python, Django, MySQL, HTML, CSS, JavaScript, Bootstrap 5, Crispy Forms, reCAPTCHA

Heart Disease Prediction System — *Machine Learning & Data Analytics*

- Developed a machine learning model to predict heart disease risk using patient health attributes and Clinical data
- Performed data preprocessing, feature selection, and exploratory analysis to identify key factors influencing heart disease
- Trained and evaluated classification algorithms using performance metrics such as accuracy, precision, recall, and confusion matrix
- Built an interactive interface/dashboard to visualize insights and enable real-time prediction for decision support

Tech: Python | Machine Learning | Pandas | Scikit-learn | Data Visualization | Streamlit

HR Attrition Analysis Dashboard — *Data Analytics – Power BI*

- Analyzed HR attrition dataset to uncover key drivers of employee turnover across departments and job roles
- Designed an interactive Power BI dashboard with slicers, filters, and drill-through for dynamic exploration
- Built DAX measures to calculate KPIs including attrition rate, average tenure, and department-wise headcount
- Generated actionable insights to support HR strategy and strengthen employee retention initiatives

Tech: Power BI | DAX | Data Visualization | Data Cleaning | HR Analytics

Learning, RAG, NLP basics, Model Evaluation, Feature Engineering

CERTIFICATIONS

- Naan Mudhalvan Skill Development Program – Network Essentials in CISCO (12 Weeks)
- Full Stack Web Development – Profizio Solutions (4 W)
